FEDERAL CREDIT UNION

System Maintenance Notification

To ensure system stability and continuity of our system, the Credit Union will be conducting an unscheduled system maintenance event.

In order to minimize the impact of this maintenance event, we will be shutting down our system on:

- **Wednesday, October 9, from 1:00 am to 6:00 am HST**

During the maintenance window, all services including Home Banking, ATM access, our 24/7 call center, debit cards, shared branch access, online loan applications, Online Bill Pay, and automated phone banking will not be available. The only services not affected by this event are the HLEFCU Platinum Mastercard credit cards and the MoneyDesktop MoneyMobile app.

If you have any Bill Payments and/or loan or credit card payments from another institution scheduled during this maintenance period, we recommend you reschedule these payments to occur either the day before or the day after the maintenance windows. And if you have any automatic transfers scheduled to post during this time, we recommend you verify that your transfer(s) has been completed successfully.

Should you have any questions regarding our system maintenance event, please give us a call at 808.973.4311, or visit one of our branches. Thank you for your continued support. We look forward to serving you again soon.
